Deep in the heart of the city, Arkham bursts at the seams. Night falls, and the villains have taken over....Welcome to the Asylum, where the freaks come out at night to play. Come and participate in some debauchery with the demented, deranged and the lunatic fringe and party until the sun comes up. Listen for the maniacal laughter in the distance and try to resist the psychotic antics of the Red and Black. Minions covered in ivy, trying to escape the chokehold. Can you survive?
